- * Aluminum floorboard : optional item (page : 87)
- * Plastic floorboard : optional item (page : 87)

Our newest model, the Heavy-duty ARMADA RESCUE, is built tough and makes an excellent work boat for both private and commercial use.

The flagships of our transom boat series, these new models are our fastest and strongest boats. Designed to carry up a 50 HP engine, these boats will travel at 35 knots and handle rough seas with ease. The super large 49 to 56cm pontoons allow these boats to easily support eight to thirteen people and provide greater rigidity to the hull. The deep 30cm inflatable keel cuts through the waves and:

- a. provides excellent performance
- b. provides excellent maneuverability
- c. provides excellent turning capability
